Filta Group Holdings plc
("Filta", the "Company" or the "Group")

Further re launch of specialist COVID-19 sanitising service

The Company announced today that it had launched FiltaShield, a new COVID-19 sanitising service. The Company is confident that FiltaShield can assist businesses in preparing to operate again, as countries come out of "lockdown", but emphasises that this is a new offering and that it is, therefore, difficult to predict the level of take-up of the service. At this stage, there has been no material change to the Company's position as set out in its announcement of 23 March 2020.

Further announcements will be made when appropriate or at the time of the announcement of the Company's results for the period ending 31 December 2019, which is expected to be by the end of May.

This announcement contains price sensitive information.
